Code-Layout, Readability And Reusability

This document provides guidelines and best practices for improving the code layout, readability, and reusability of your student performance analysis project. By following these recommendations, you can make your code more organized and maintainable while also enhancing its readability and reusability.

This document aims to address three essential aspects of software development:

Code Layout: Structuring the code for clarity, maintainability, and ease of navigation.

Readability: Ensuring that the code is easy to understand and comprehend by you, your team, or future developers.

Reusability: Making the code versatile and adaptable for use in different scenarios or projects.
